DETAILED ACTION

Response to Arguments

1. Applicants' amendments and arguments, filed on 1/8/2008, with respect to Claims 6, 10-12, 19, 23, 24, 26-28 and 30 have been fully considered. The 35U.S.C.103(a) rejections have been overcome by rewritten those objected claims – dependent claims in independent form including all of the limitations of the base claim and any intervening claims.

Allowable Subject Matter

2. Claims 4-13, 17-21, 23-28 and 30-35 are allowed.
3. The following is an examiner's statement of reasons for allowance.
 - The prior art fails to teach an apparatus of Claims 4, 17, 25 and 31 that specifically comprises the following:
 - The instant application is deemed to be directed to a non-obvious improvement over the admitted prior art of the instant application and the invention patented in Pat. No. US 6,888,879 and US 6,574,558. The improvement comprises:
 - With regard claims 4 and 17, " wherein for the acquisition mode, the sample reducer includes an adder. The adder is adapted to provide a digital output representative of a value of a sum of the N bits, and wherein in the acquisition mode, the adder is adapted to provide an output having a first logic state if the sum of the N bits is greater than a given value and an output having a second logic state opposite to said first logic state if the

sum of N bits is less than the given value." as recited in combination with other limitation in claims 4 and 17, respectively, and

With regard claims 25 and 31, "wherein the means for reducing the number of bits of the digital bit stream by combining groups of N bits includes means for summing the groups of N bits to obtain a sum, the means for summing including: means for providing a first binary value if the sum is greater than a given value and a second binary value if the sum is less than the given value; and means for alternately providing the first binary value and the second binary value if the sum is equal to the given value." as recited in combination with other limitation in claims 25 and 31, respectively.

.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
